Vice President – Josh Alvarado

- General update
  -Kelly Haskett, Fair Oaks Registrar was asking about a date in Novemeber to see if we had a field available, told her to reach out to Pete Phillips

-discussion among the presidents text thread it was D1 U10 level, context was to circle back to wether we allow no goal differential on D1 level play and wanting to revisit the topic. It stems from a taunting type of attitude that even though there wasn't a goal differential they were still acting unsportsmanlike and showboating in their winning by a lot. A D1 team should have the self control to not behave in such a manner. Perhaps the goal differential should be brought back at D1 if this is the behavior they are showing. Discussion will continue at an upper level with 3 Bridges.

President – Pete Phillips

- Set AGM date
  -in order to get participation we should go back to the coach and referee dinner on same night, would like to do the AGM first and then the coach and referee dinner after that. November 14 is the tenative date
- End of Rec season
- AED/CPR training and compliance plans AB310
  -requirement that we have discussed previously about AED's at all fields that children play at. Coach's need to have AED training certificate, we as a club need to make sure the fields we play at have these AED's, it's a further conversation with San Juan Unified and ORPD. The fields we use are ORPD but the school the fields reside at are San Juan Unified.

General information notes- AGM will be November 14 at Orangevale community center tenatively
